Hi Arnaud,

So you're planning to cross the English Channel and spend a few days in the UK? Great idea. It's true that I make the trip regularly. But, in reply to your question, I'm not sure I can tell you the best way to travel. That depends on different things.

I normally go by car because, generally, I have the kids with me, and we need to take lots of stuff. We sometimes take the ferry, mainly in summer when the weather's usually better – though not always! The crossing takes 90 minutes. But we often take the car through the Channel Tunnel, as well. You don't actually drive through. You drive onto a big train, and that takes you through while you sit in the car. That's quicker than the ferry. It only takes 35 minutes. But you don't get to see the sea. In my experience, both options are fairly reliable. You rarely get major delays. Although if the weather's really bad, the ferries occasionally run a bit late. And both services run frequently.

If you don't want to take the car, you can go on the Eurostar (high-speed train). That runs from Paris, Brussels and Lille, through the Channel Tunnel and direct to London. Mostly, I take that when I'm traveling on my own. It's certainly the fastest way if you're in a hurry. Paris to London takes about 2 hours 15 minutes. And, of course, you could get a plane from Paris to London – although I very seldom do that.
